RE: Records Search for the Proposed Palisades Landmark Condominium Project at  
17331-17333 Tramonto Drive, Los Angeles, CA

Dear Ms. Johnson,

As per your request received on April 2, 2002, we have conducted a records search for the above referenced project. This search includes a review of all recorded historic and prehistoric archaeological sites within a one-half mile radius of the project area as well as a review of all known cultural resource reports. In addition, we have checked our file of historic maps, the California Points of Historical Interest (PHI), the listing of California Historical Landmarks (CHL) in the region, the National Register of Historic Places (NR), the California State Historic Resources Inventory (HRI) and the listing of the City of Los Angeles Historic-Cultural Monuments. The following is a discussion of our findings for the project area.

Due to the sensitive nature of cultural resources, archaeological site locations are not released.

### **ARCHAEOLOGICAL RESOURCES:**

Two prehistoric archaeological sites (19-000134 and 19-000219) have been identified within a one-half mile radius of the project area. Of which, none are located within the project area and none are listed on the National Register Archaeological Determination of Eligibility list. No prehistoric isolates have been identified within a one-half mile radius of the project area.

No historic archaeological sites have been identified within a one-half mile radius of the project area. No historic isolates have been identified within a one-half mile radius of the project area.

## **HISTORIC RESOURCES:**

No recorded historic built environments have been identified within a one-half mile radius of the project area.

A review of our historic map – Calabasas (1903) 15' USGS - indicated that there was the small communities of Calabasas, Encino and Reseda and the city of Santa Monica with Santa Monica Bay and Port Los Angeles. There were few roads, the Southern Pacific Railroad Chatsworth Park Branch and creeks and tributaries.

The California Point of Historical Interest (1992) of the Office of Historic Preservation, Department of Parks and Recreation, lists no properties within a one-half mile radius of the project area.

The California Historical Landmarks (1990) of the Office of Historic Preservation, Department of Parks and Recreation, lists no properties within a one-half mile radius of the project area.

The National Register of Historic Places lists no properties within a one-half mile radius of the project area.

The California Historic Resources Inventory lists no properties that have been evaluated for historical significance within a one-half mile radius of the project area.

## **PREVIOUS CULTURAL RESOURCES INVESTIGATIONS:**

Twenty-three studies (see enclosed list) have been conducted within a one-half mile radius of the project area. Of these, none are located within the project area. There are sixteen additional investigations located on the Topanga 7.5' USGS Quadrangle and are potentially within a one-half mile radius of the project area. These reports are not mapped due to insufficient locational information.

## **RECOMMENDATIONS**

Given the close proximity of the project area to two archaeological sites, our office recommends that a professional archaeologist be retained to conduct a pedestrian survey of the project area prior to the approval of the project plan.

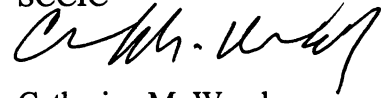

If any building(s) 45 years and older will be affected by the proposed project, our office recommends that the building(s) be assessed and evaluated for potential historical significance.

The professional archaeologist you retain may request the records search map, archaeological site records, and bibliography from our office referencing this invoice for a fee (per our fee schedule).

If you have any questions regarding the results presented herein, please feel free to contact our office at 714.278.5395 Monday through Thursday 8:00 am to 3:30 pm.

Invoices are mailed approximately two weeks after records searches are completed. This enables your firm to request further information under the same invoice number. Please reference the invoice number listed below when making inquiries. Requests made after the invoicing will result in the preparation of a separate invoice with a \$15.00 handling fee.

Sincerely,  
SCCIC

Catharine M. Wood  
Staff Archaeologist

Enclosures:

- HRI
- National Register Status Codes
- Survey List - 1 page

**REFERRAL LIST FOR HISTORICAL RESOURCES  
CONSULTANTS**

This is a partial, alphabetically ordered, list of individuals, firms and institutions which meet minimum qualifications to perform identification, evaluation, registration, and treatment activities within the profession under which they are listed, in compliance with federal and state environmental laws. It is composed of all individuals who have requested listing by this Information Center and who have satisfactorily documented that they meet the Secretary of the Interior's Standards (SIS) for that profession. Inclusion on this list is determined solely on this evaluation and not on a review of current work.

The first page of this listing is comprised of individuals who were certified by the Society of Professional Archaeologists and who were listed on this Information Center's Referral List as of August 11, 1995. These individuals may or may not meet the Secretary of the Interior's Standards.

The Information Center provides a copy of this list without charge when field inspection is recommended or upon request.

This list has been prepared in accordance with guidelines stipulated by the State. Inclusion on this list does not constitute endorsement or recommendation by the State or this Information Center.

Questions regarding this Referral List may be directed to John Thomas, Staff Archaeologist, or Jan Wooley, Staff Historian, Coordinators of the California Historical Resources Information System, Office of Historic Preservation, at (916) 653-6624.
