### EMPLOYMENT PROTECTION DISTRICT (EMP):

Areas where industrial zoning should be maintained, i.e., where adopted General Plan, Community Plan and Redevelopment Plan industrial land use designations should continue to be implemented. Residential uses in these Districts are not appropriate.

### INDUSTRIAL MIXED USE DISTRICT (IMU):

Areas that should remain as predominantly industrial/employment districts, but which may support a limited amount of residential uses.

### TRANSITION DISTRICT (TD):

Areas where the viability of industrial use has been compromised by significant conversions and where this transition to other uses should be continued. Transition Districts have been identified in areas where “Alternate Policies” (AP) such as specific plans, Transit Oriented Districts (TOD) and other planning efforts are anticipated or in process. Unlike “Industrial Mixed Use Districts,” stand-alone housing or mixed use developments containing housing and commercial uses may be appropriate in “Transition Districts.”

### CORRECTION AREA (CA):

Areas where earlier land use decisions resulted in inappropriate land use conflicts. A change in zoning and land use designations to correct existing land use conflicts is deemed appropriate and should be encouraged.

STAFF DIRECTIONS:

Preserve industrial zoning consistent with Central City Community Plan; allow industrial and ancillary and neighborhood-serving commercial uses. Reinforce Community Plan objectives for affordable housing, develop policies to allow permanent supportive housing, and assure no net loss of existing affordable housing. Recommendations should address policies proposed by the pending Skid Row Action Plan.

Exception: allow housing in adaptive reuse projects along 3rd Street frontage to provide a transition between industrial and Little Tokyo districts.
CENTRAL CITY - DOWNTOWN: ANALYSIS AREA 2

STAFF DIRECTIONS:
Recommend initiation of Central City Community Plan amendment to consider change from industrial to commercial land use designation and zoning to allow residential and mixed-use development consistent with existing and surrounding uses. Residential uses in proximity to freeways should be further evaluated.

- Design for Development
STAFF DIRECTIONS:
Preserve industrial zoning consistent with Central City Community Plan; allow industrial and commercial uses that support growth of Fashion and Flower districts. Allow Adaptive reuse and live/work conversions in multi-story buildings with heights greater than three (3) stories, only when ground floor is designated for industrial or Fashion/Flower District related use.

Within five (5) years, review development activity in adjacent Area 2 to determine if pace of residential and mixed use development there warrants residential and mixed use development in this subarea. No new “ground-up” residential construction prior to this review.
Preserve industrial zoning consistent with Central City Community Plan; allow industrial and ancillary commercial uses only.
