Your message to [Victoria.Kordysh@tvgn.tv](mailto:Victoria.Kordysh@tvgn.tv) couldn't be delivered.

**Victoria.Kordysh** wasn't found at [tvgn.tv](http://tvgn.tv).

Office 365

[Victoria.Kordysh](mailto:Victoria.Kordysh)

**Action Required**

Recipient

Unknown To address

### How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link **"To send this message again, click here."** Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.10 in Office 365](#), and then send the message

again. Retype the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

## More Info for Email Admins

Status code: 550 5.1.10

This error occurs because the sender sent a message to an email address hosted by Office 365 but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

**The email address exists and is correct** - Confirm that the recipient address exists, is correct, and is accepting messages.

**Synchronize your directories** - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

**Errant forwarding rule** - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

**Recipient has a valid license** - Make sure the recipient has an Office 365 license assigned to them. The recipient's email admin can use the Office 365 admin center to assign a license (Users > Active Users > select the recipient > Assigned License > Edit).

**Mail flow settings and MX records are not correct** - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see [Fix email delivery issues for error code 5.1.10 in Office 365](#).

Your message to [MInsidioso@danielian.com](mailto:MInsidioso@danielian.com) couldn't be delivered.

**Action Required**

[MInsidioso](mailto:MInsidioso@danielian.com)  
 Recipient

Unknown To address

## How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.10 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

## More Info for Email Admins

Status code: 550 5.1.10

This error occurs because the sender sent a message to an email address hosted by Office 365 but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

**The email address exists and is correct** - Confirm that the recipient address exists, is correct, and is accepting messages.

**Synchronize your directories** - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

**Errant forwarding rule** - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

**Recipient has a valid license** - Make sure the recipient has an Office 365 license assigned to them. The recipient's email admin can use the Office 365 admin center to assign a license (Users > Active Users > select the recipient > Assigned License > Edit).

**Mail flow settings and MX records are not correct** - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see [Fix email delivery issues for error code 5.1.10 in Office 365](#).

**PROJECT LOCATION:** 8148-8182 West Sunset Boulevard; 1438-1486 North Havenhurst Drive; 1435-1443 North Crescent Heights Boulevard.

**PROJECT PROPOSED:** The proposed project is a mixed-use development of an approximately 2.56-acre (111,339 square foot) site. The project site is currently occupied by two commercial buildings and associated parking, all of which would be removed to allow for the proposed project. The project would include approximately 111,339 square feet of commercial retail and restaurant uses, and 249 residential apartment units, including 28 units set aside for Very Low Income Households, representing 222,564 gross square feet of residential space. The total development would include up to 333,903 square feet of commercial and residential space with a maximum floor area ratio of 3:1. The project would consist of two buildings over a single podium structure with various elements ranging in height from two stories to 16 stories. The North Building would include two levels with a rooftop terrace containing exclusively commercial uses. The South Building would contain commercial uses on the first two levels, residential uses on levels three through 15, and a rooftop restaurant/lounge on the top level. The overall building height is approximately 216 feet as measured from the lowest point of the project site. Parking for all proposed uses would be provided on-site via a seven-

level (of which three levels are subterranean or semi-subterranean) parking structure housed within the podium structure.

### **REQUESTED ACTION:**

#### **The Deputy Advisory Agency will consider:**

1. Pursuant to Section 21082.1(c) of the California Public Resources Code, certification of the **Environmental Impact Report**, findings, Statement of Overriding Considerations and accompanying mitigation measures and Mitigation Monitoring Program for ENV-2013-2552-EIR, SCH No. 2013091044;

The project request includes Haul Route approval for the export of approximately 58,500 cubic yards of material.

#### **The City Planning Commission Hearing Officer will consider:**

1. Pursuant to Section 21082.1(c) of the California Public Resources Code, the adequacy of the **Environmental Impact Report**, findings, Statement of Overriding Considerations and accompanying mitigation measures and Mitigation Monitoring Program for ENV-2013-2552-EIR, SCH No. 2013091044, for the following actions:

**PROJECT LOCATION:** 8148-8182 West Sunset Boulevard; 1438-1486 North Havenhurst Drive; 1435-1443 North Crescent Heights Boulevard.

**PROJECT PROPOSED:** The proposed project is a mixed-use development of an approximately 2.56-acre (111,339 square foot) site. The project site is currently occupied by two commercial buildings and associated parking, all of which would be removed to allow for the proposed project. The project would include approximately 111,339 square feet of commercial retail and restaurant uses, and 249 residential apartment units, including 28 units set aside for Very Low Income Households, representing 222,564 gross square feet of residential space. The total development would include up to 333,903 square feet of commercial and residential space with a maximum floor area ratio of 3:1. The project would consist of two buildings over a single podium structure with various elements ranging in height from two stories to 16 stories. The North Building would include two levels with a rooftop terrace containing exclusively commercial uses. The South Building would contain commercial uses on the first two levels, residential uses on levels three through 15, and a rooftop restaurant/lounge on the top level. The overall building height is approximately 216 feet as measured from the lowest point of the project site. Parking for all proposed uses would be provided on-site via a seven-

level (of which three levels are subterranean or semi-subterranean) parking structure housed within the podium structure.

Dear Mr Lamborn,

It was good to talk to you this afternoon, and thank you for taking the time to clarify the nature of the upcoming hearing to review the nine alternative possible projects described within the DE

I would like you to please enter my comments below into the public record.

I was a founding member of the group Save Sunset Boulevard, a non-profit set up to oppose the originally proposed development (DEIR Alternative 3) at 8150 Sunset Blvd. I personally compiled especially Alternatives 3 through 8, and hand delivered it with our groups comments to the Environmental Unit at City Hall on Jan 20th 2015.

Then, during the spring of 2015, one of the members of the CD4 PLUM arranged for a meeting between myself and Townscape Partners. They came to my home, which looks directly at the : the initially proposed (hideous) towers. I explained how the proposed monoliths, full of single bedroom & studio apartments with too little parking and far too much commercial space, including devastated our local community.

Four months later they called me, and invited me to see their new plan, Alternative 9, the Gehry proposal. I was completely blown away, not only did Townscape listen and take on board new visionary project.

In my humble opinion the Gehry proposal is exactly the kind of visionary architecture and thinking that Los Angeles, Hollywood, West Hollywood and Sunset Boulevard should embrace. The scrapers with neither character nor style, but this will be one of a hand full of new buildings to define Los Angeles in the 21st century.

I believe there are a considerable number of pluses for our community in the Gehry proposal, including but not limited to;

- It has far less reliance on commercial occupancy (40% less than Alt 3), and does away with the hated roof top dining, making 8150 a quiet neighbor, something we all want.
- 40% less commercial means that the project will generate far less traffic at the already over congested Sunset/Crescent junction.
- The apartments are no longer transitory dormitories that don't build community, but breathtaking homes that will transform the profile of the area, and build great worth into the community.
- The profile of the potential tenants (and owners) in such a landmark building will benefit our local schools, parks and services in many ways.
- The proposal now includes another floor of underground parking, which combined with 40% less commercial traffic, relieves a lot of the neighborhood concerns about parking overflows.
- The quality of restaurants, shops and services that will be attracted to such a landmark project will benefit those of us, like myself, who live within walking distance.
- Frank Gehry is a Los Angeles architect, and his Disney Hall is one of the greatest buildings side of the Continental Divide. I believe his dramatic design in Alternative 9 will be one of the best it needs to be built.

For me personally this project will erase my view of downtown, something I have cherished for the twenty years I have lived in my house. However I am prepared to sacrifice this for something better for the neighborhood. Below I have attached an illustration that shows what a building that breaks the horizon by 70 feet will look like from my home. Despite that I wholeheartedly support Alternative 9, the variances required.

I urge the city fathers to green light Alternative 9. However, I can not lend my support to any of the other Alternatives in the DEIR, as they in no way represent what I believe our city or our community needs.

Thank you for adding my comments to the public record.

Warmest regards, Andrew Macpherson

Andrew Macpherson
