## How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.10 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

## More Info for Email Admins

Status code: 550 5.1.10

This error occurs because the sender sent a message to an email address hosted by Office 365 but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

**The email address exists and is correct** - Confirm that the recipient address exists, is correct, and is accepting messages.

**Synchronize your directories** - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

**Errant forwarding rule** - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

**Recipient has a valid license** - Make sure the recipient has an Office 365 license assigned to them. The recipient's email admin can use the Office 365 admin center to assign a license (Users > Active Users > select the recipient > Assigned License > Edit).

**Mail flow settings and MX records are not correct** - Misconfigured mail flow or MX

record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see [Fix email delivery issues for error code 5.1.10 in Office 365](#).

## How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.10 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

## More Info for Email Admins

Status code: 550 5.1.10

This error occurs because the sender sent a message to an email address hosted by Office 365 but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

**The email address exists and is correct** - Confirm that the recipient address exists, is correct, and is accepting messages.

**Synchronize your directories** - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

**Errant forwarding rule** - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

**Recipient has a valid license** - Make sure the recipient has an Office 365 license assigned to them. The recipient's email admin can use the Office 365 admin center to assign a license (Users > Active Users > select the recipient > Assigned License > Edit).

**Mail flow settings and MX records are not correct** - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make

sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

**NOTICE OF COMPLETION AND AVAILABILITY OF  
FINAL ENVIRONMENTAL IMPACT REPORT NO. ENV-2013-2552-EIR**

**TO:** Owners of Property and Occupants and other interested parties

**PROJECT NAME:** 8150 Sunset Boulevard Mixed Use Project

**PROJECT LOCATION:** 8148-8182 West Sunset Boulevard; 1438-1486 North Havenhurst Drive; 1435-1443, North Crescent Heights Boulevard, Los Angeles, CA 90046.

**COMMUNITY PLANNING AREA:** Hollywood

**COUNCIL DISTRICT:** 4 – David E. Ryu

**STATE CLEARINGHOUSE NO.:** 2013091044

**OTHER REFERENCE NO.:** VTT-72370-CN and CPC-2013-2551-CUB-DB-SPR

**CERTIFIED NEIGHBORHOOD COUNCIL:** Hollywood Hills West

**PROJECT DESCRIPTION:** The proposed 8150 Sunset Boulevard Mixed Use Project consists of two buildings over a single podium structure with elements ranging in height from two stories to 16 stories, increasing to approximately 108 feet for the nine-story portion and approximately 191 feet for the 16-story portion of the building; the overall building height is approximately 216 feet as measured from the lowest point of the site to the top of the South Building. The North Building would include two levels with a rooftop terrace containing exclusively commercial uses. The South Building would contain commercial uses on the first two levels, residential uses on levels three through 15, and a rooftop restaurant/lounge on the top level. The project would include approximately 111,339 square feet of commercial retail and restaurant uses and one rooftop level, 249 apartment units, including 28 affordable housing units, representing approximately 222,564 gross square feet of residential space. The project would also provide a central public plaza, public space at the northeast corner of the site, public rooftop deck/garden areas, a private pool and pool deck area for residents, as well as other resident-only amenities totaling approximately 6,900 square feet. Parking for all proposed uses would be provided on-site via a seven-level parking structure housed within the podium structure that includes 849 total parking spaces (295 residential and 554 commercial). The total development would include

approximately 333,903 square feet of commercial and residential space with a maximum floor-area ratio (FAR) of approximately 3:1.

**REQUESTED APPROVALS:** Certification of the EIR; Density Bonus pursuant to LAMC Section 12.22-A,25; Utilization of Parking Option 1 to allow one on-site parking space for each Residential Unit of zero to one bedrooms, two on-site parking spaces for each Residential Unit of two to three bedrooms, and two-and-one-half on-site parking spaces for each Residential Unit of four or more bedrooms; Off-Menu Incentive pursuant to LAMC Section 12.22-A,25 to allow the lot area including any land to be set aside for street purposes to be included in calculating the maximum allowable floor area, in lieu of as otherwise required by LAMC Section 17.05; Off-Menu Incentive pursuant to LAMC Section 12.22-A,25 to allow a 3:1 Floor Area Ratio for a Housing Development Project located within 1,560 feet of a Transit Stop, in lieu of the 1,500 foot distance specified in LAMC Section 12.22-A,25(f)(4)(ii); Site Plan Review; Conditional Use for the sale and/or dispensing of a full line of alcoholic beverages in conjunction with four restaurant/dining uses, and the sale of a full line of alcoholic beverages for off-site consumption in conjunction with a grocery store; Vesting Tentative Tract Map; Demolition Permits, haul route approval and other entitlements and approvals as deemed necessary, as required by the City.
