

least 10 meet the minimum requirements for § 721.63(a)(4):

(A) NIOSH-certified air-purifying, tight-fitting half-face respirator equipped with N100 (if oil aerosols absent), R100, or P100 filters;

(B) NIOSH-certified air-purifying, tight-fitting full-face respirator equipped with N100 (if oil aerosols absent), R100, or P100 filters;

(C) NIOSH-certified powered air-purifying respirator equipped with a loose-fitting hood or helmet and high efficiency particulate air (HEPA) filters;

(D) NIOSH-certified powered air-purifying respirator equipped with a tight-fitting facepiece (either half-face or full-face) and HEPA filters; or

(E) NIOSH-certified supplied-air respirator operated in pressure demand or continuous flow mode and equipped with a hood or helmet, or tight-fitting facepiece (either half-face or full-face).

(i) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80 (f), (j), (s)(1000 kilograms), (v)(1), and (v)(2).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping.* Recordkeeping requirements as specified in § 721.125(a), (b), (c), (d), (e), and (i) are applicable to manufacturers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.1725(b)(1) apply to paragraph (a)(2)(ii) of this section.

The provisions of § 721.1725(b)(1) apply to this section.

■ 16. Add § 721.10279 to subpart E to read as follows:

§ 721.10279 Multi-walled carbon nanotubes (generic) (P-10-246).

(a) *Chemical substance and significant new uses subject to reporting.*

(1) The chemical substance identified generically as multi-walled carbon nanotubes (PMN P-10-246) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section. The requirements of this rule do not apply to quantities of the PMN substance after it has been completely reacted (cured); embedded or incorporated into a polymer matrix that itself has been reacted (cured); embedded in a permanent solid polymer form that is not intended to undergo further processing, except for mechanical processing.

(2) The significant new uses are:

(i) *Protection in the workplace.*

Requirements as specified in § 721.63(a)(1), (a)(2)(i), (a)(2)(ii), (a)(3), (a)(4), (a)(6)(i), (a)(6)(ii), and (c). When determining which persons are reasonably likely to be exposed as required for § 721.63(a)(1) and (a)(4), engineering control measures (e.g., physical containment, exhaust control ventilation, or isolation) or administrative control measures (e.g., workplace policies and procedures) shall be considered and implemented to prevent exposure, where feasible. The following National Institute for Occupational Safety and Health (NIOSH)-certified respirators with an assigned protection factor (APF) of at least 50 meet the minimum requirements for § 721.63(a)(4):

(A) NIOSH-certified air-purifying, tight-fitting full-face respirator equipped with N100 (if oil aerosols absent), R100, or P100 filters;

(B) NIOSH-certified powered air-purifying respirator equipped with a loose-fitting hood or helmet and high efficiency particulate air (HEPA) filters; or

(C) NIOSH-certified powered air-purifying respirator equipped with a tight-fitting facepiece (either half-face or full-face) and HEPA filters.

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(f), (k) (conductivity additive to resins, rubber, and to battery electrodes), and (q).

(iii) *Release to water.* Requirements as specified in § 721.90(b)(1), and (c)(1).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping.* Recordkeeping requirements as specified in § 721.125(a), (b), (c), (d), (e), (i), and (k) are applicable to manufacturers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.1725(b)(1) apply to paragraph (a)(2)(ii) of this section.

■ 17. Add § 721.10280 to subpart E to read as follows:

§ 721.10280 Benzene ethenyl-, polymer with 1,3-butadiene, brominated.

(a) *Chemical substance and significant new uses subject to reporting.*

(1) The chemical substance identified as benzene ethenyl-, polymer with 1,3-butadiene, brominated (PMN P-10-476; CAS No. 1195978-93-8) is subject to

reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(j) (manufacture by the method where the average number molecular weight is in the range of 1000 to 10,000 daltons, or where less than 5 percent of the particles are in the respirable range of 10 microns or less and the average number molecular weight is greater than or equal to 10,000 daltons).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping.* Recordkeeping requirements as specified in § 721.125(a), (b), (c), and (i) are applicable to manufacturers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

[EPA-R09-OAR-2013-0007; FRL-9826-4]

Approval and Promulgation of Implementation Plans; Designation of Areas for Air Quality Planning Purposes; California; South Coast Air Basin; Approval of PM₁₀ Maintenance Plan and Redesignation to Attainment for the PM₁₀ Standard

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving, as a revision to the California State implementation plan (SIP), the State's request to redesignate the Los Angeles-South Coast Air Basin (South Coast) to attainment for the 24-hour particulate matter of ten microns or less (PM₁₀) national ambient air quality standard (NAAQS). EPA is also approving the PM₁₀ maintenance plan and the associated PM₁₀ motor vehicle emissions budgets for use in transportation conformity determinations necessary for the South Coast PM₁₀ area. Finally, EPA is approving the attainment year emissions inventory. EPA is taking these actions because the SIP revision meets the

requirements of the Clean Air Act (CAA) and EPA guidance for such plans and motor vehicle emissions budgets.

DATES: *Effective Date:* This rule is effective on July 26, 2013.

ADDRESSES: You may inspect the supporting information for this action, identified by docket number EPA-R09-OAR-2013-0007, by one of the following methods:

1. Federal eRulemaking portal, <http://www.regulations.gov>, please follow the online instructions; or,
2. Visit our regional office at, U.S. Environmental Protection Agency Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901.

Docket: The index to the docket for this action is available electronically at <http://www.regulations.gov> and in hard copy at EPA Region IX, 75 Hawthorne Street, San Francisco, California. While documents in the docket are listed in the index, some information may be publicly available only at the hard copy location (e.g., voluminous records, large maps, copyrighted material), and some may not be publicly available in either location (e.g., Confidential Business Information). To inspect the hard copy materials, please schedule an appointment during normal business hours with the contact listed directly below.

- I. Summary of Proposed Action
- II. Public Comment and EPA Response
- III. EPA’s Final Action
- IV. Statutory and Executive Order Reviews

I. Summary of Proposed Action

On April 8, 2013 (78 FR 20868), based on EPA’s review of the *Final PM₁₀ Redesignation Request and Maintenance Plan for the South Coast Air Basin* (December 2009) (“2009 South Coast PM₁₀ Redesignation Request and Maintenance Plan”) submitted by California, air quality monitoring data, and other relevant materials, EPA proposed to approve the State of California’s request to redesignate the South Coast PM₁₀ nonattainment area to attainment of the PM₁₀ NAAQS, pursuant to CAA sections 107(d)(3)(E) and 175A. The background for today’s actions is discussed in detail in EPA’s April 8, 2013 proposed rulemaking and technical support document (TSD).

We based our conclusion that the area had attained the standard on our

determination that the three years of complete, quality-assured data for the period 2008–2010 showed that the South Coast PM₁₀ nonattainment area had attained the PM₁₀ NAAQS.

We also determined based on more recent data that the area continues to attain the NAAQS based on certified, quality-assured 2012 data. Data for 2013 have not been submitted to EPA’s Air Quality System (AQS) and are not required to be submitted until June 30, 2013.

Our proposed approval of the redesignation request was based on EPA’s finding that the area meets all other CAA redesignation requirements under section 107(d)(3)(E) and the CAA maintenance plan requirements under section 175A.

EPA proposed to approve the State’s maintenance plan, which includes SIP-approved control measures for fugitive dust, open burning and wood burning devices, cement manufacturing, aggregate and related operations, and paved and unpaved roads, among others. Implementation of these control measures has resulted in attainment of the PM₁₀ NAAQS in the South Coast nonattainment area and the continued implementation of these control measures is expected to provide for maintenance of the PM₁₀ NAAQS into the future. We also proposed to approve the motor vehicle emissions budgets associated with the plan because the plan demonstrated that these emissions levels, when considered with emissions from all other sources, were consistent with maintenance of the NAAQS.

Finally, EPA proposed to approve the attainment year emissions inventory submitted with the maintenance plan as meeting the requirements of CAA section 172(c)(3).

II. Public Comments and EPA Responses

EPA provided for a 30-day public comment period on our proposed action. The comment period ended on May 8, 2013. We received one comment letter from the South Coast Air Quality Management District (SCAQMD or District) on May 8, 2013.¹ We respond to that comment here.

Comment: SCAQMD strongly supports EPA’s proposed action. The District also commented that it submitted, through CARB, exceptional events packages requesting exclusion of monitoring data from multiple sites in the SCAQMD network from October 21,

2007 and July 5, 2007 under EPA’s Exceptional Events Rule (72 FR 28612, May 22, 2007). The exceptional events requests were submitted to EPA by CARB on October 23, 2009 and December 22, 2009, respectively. The letter also requested EPA to acknowledge the requests if EPA did not evaluate these requests before taking final action on this proposal.

Response: EPA received two exceptional events requests from CARB for South Coast monitoring data from 2007 on October 23, 2009 and December 22, 2009. EPA is not taking any action on the exceptional events requests cited in the District’s comment letter. It is not necessary for EPA to process those requests because this final action is based on monitored data occurring after the time of those requests. Therefore, whether we granted or denied the exceptional events requests concerning data from 2007, it would not have any bearing on our action today.

III. EPA’s Final Action

Based on our review of the 2009 South Coast PM₁₀ Redesignation Request and Maintenance Plan submitted by the State, air quality monitoring data, and other relevant materials, EPA finds that the State has addressed all the necessary requirements for redesignation of the South Coast air basin to attainment of the PM₁₀ NAAQS, pursuant to CAA sections 107(d)(3)(E) and 175A.

First, under CAA section 107(d)(3)(D), we are approving CARB’s request, which accompanied the submittal of the maintenance plan, to redesignate the South Coast PM₁₀ nonattainment area to attainment for the 24-hour PM₁₀ NAAQS. We are doing so based on our conclusion that the area has met the five criteria for redesignation under CAA section 107(d)(3)(E). Our conclusion is based on our determination that the area has attained the 24-hour PM₁₀ NAAQS; that relevant portions of the California SIP are fully approved; that the improvement in air quality is due to permanent and enforceable reductions in emissions; that California has met all requirements applicable to the South Coast PM₁₀ nonattainment area with respect to section 110 and part D of the CAA; and that we are approving the South Coast PM₁₀ maintenance plan as part of today’s action.

Second, in connection with the 2009 South Coast PM₁₀ Redesignation Request and Maintenance Plan, EPA is finding that the maintenance demonstration showing how the area will continue to attain the 24-hour PM₁₀ NAAQS for at least 10 years beyond redesignation (i.e., through 2030) and

¹ See letter, Elaine Chang, DrPH, Deputy Executive Officer, South Coast Air Quality Management District, to Wienke Tax, US Environmental Protection Agency, Region IX, dated May 8, 2013, in the docket for today’s action.

the associated motor vehicle emissions budgets meet applicable CAA requirements for maintenance plans and transportation conformity requirements under 40 CFR 93.118(e). We are also approving the 2010 emissions inventory as meeting the applicable requirements for emissions inventories in CAA sections 175A and 172.

With today's action, we are finalizing our approval of the motor vehicle emissions budgets. After the effective date of today's final rule, the approved budgets must be used in any future regional emissions analysis for PM₁₀ conducted by the local metropolitan planning organization, the Southern California Association of Governments, and the Federal Highway Administration.

IV. Statutory and Executive Order Reviews

Under the CAA, redesignation of an area to attainment and the accompanying approval of a maintenance plan under section 107(d)(3)(E) are actions that affect the status of a geographical area and do not impose any additional regulatory requirements on sources beyond those imposed by State law. A redesignation to attainment does not in and of itself create any new requirements, but rather results in the applicability of requirements contained in the CAA for areas that have been redesignated to attainment. Moreover, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve State choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For these reasons, these actions:

- Are not "significant regulatory actions" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Do not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Are certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Do not contain any unfunded mandate or significantly or uniquely affect small governments, as described

in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- Do not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Are not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Are not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Are not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Do not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the final action does not apply in Indian country located in the State, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law. Nonetheless, in accordance with EPA's 2011 Policy on Consultation and Coordination with Tribes, EPA has notified Tribes located within the South Coast PM₁₀ nonattainment area of this action.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by August 26, 2013. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the

purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements (*see* section 307(b)(2)).

List of Subjects

40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Particulate matter, Reporting and recordkeeping requirements.

40 CFR Part 81

Environmental protection, Air pollution control, National parks, Wilderness areas.

Dated: June 12, 2013.

Jared Blumenfeld,
Regional Administrator, Region 9.

Part 52, Chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—[AMENDED]

- 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart F—California

- 2. Section 52.220 is amended by adding paragraph (c)(426) to read as follows:

§ 52.220 Identification of plan.

* * * * *

(c) * * *

(426) The following plan was submitted on April 28, 2010, by the Governor's Designee.

(i) [Reserved]

(ii) Additional materials.

(A) South Coast Air Quality Management District.

(1) *Final PM₁₀ Redesignation Request and Maintenance Plan for the South Coast Air Basin* (December 2009) (2009 South Coast PM₁₀ Redesignation Request and Maintenance Plan), adopted January 8, 2010.

(2) SCAQMD Board Resolution 10-1, dated January 8, 2010, adopting the 2009 South Coast PM₁₀ Redesignation Request and Maintenance Plan.

(B) State of California Air Resources Board.

(1) CARB Resolution 10-21, dated March 25, 2010, adopting the 2009 South Coast PM₁₀ Redesignation Request and Maintenance Plan.

PART 81—[AMENDED]

■ 3. The authority citation for part 81 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart C—[Amended]

■ 4. Section 81.305 is amended in the table for “California-PM-10” by revising the entry under Riverside, Los Angeles, Orange, and San Bernardino Counties

for the “South Coast Air Basin” to read as follows:

§ 81.305 California.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[EPA-HQ-OPP-2010-0889; FRL-9391-4]

Sulfoxaflor; Pesticide Tolerances; Technical Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; technical correction.

SUMMARY: EPA issued a final rule in the **Federal Register** of May 17, 2013, concerning the establishment of tolerances for the insecticide sulfoxaflor on multiple commodities. This document corrects an inadvertent error by moving the tolerances established under 40 CFR 180.670 to 40 CFR 180.668 and removing § 180.670. This document additionally removes the time-limited tolerances for cotton, undelinted seed; cotton, gin byproducts; and cotton, hulls as the tolerances have been superseded by permanent tolerances.

DATES: This final rule is effective June 26, 2013.

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2010-0889, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), EPA West Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The

telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP Docket is (703) 305-5805. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: Jennifer Urbanski, Registration Division, (7505P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (703) 347-0156; email address: urbanski.jennifer@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Does this action apply to me?

The Agency included in the final rule a list of those who may be potentially affected by this action.

II. What does this technical correction do?

EPA issued a final rule in the **Federal Register** on May 17, 2013 (78 FR 29041), establishing tolerances for residues of the insecticide sulfoxaflor in or on multiple commodities. That rule incorrectly established tolerances for sulfoxaflor in a new section of 40 CFR part 180 (§ 180.670). Instead of creating a new section for these tolerances, EPA should have added those newly established sulfoxaflor tolerances to the already existing sulfoxaflor tolerances contained in 40 CFR 180.668. The incorrect regulatory designations were due to an inadvertent error in the **Federal Register** publication. Therefore, this action corrects this error by transferring the tolerances contained in § 180.670 to § 180.668 and removes § 180.670. In addition, EPA is removing the time-limited tolerances for cotton, undelinted seed; cotton, gin byproducts; and cotton, hulls contained in paragraph (b) of § 180.668 since these

time-limited tolerances have been superseded by permanent tolerances that were established in the May 17, 2013 rule (78 FR 29041).

III. Why is this correction issued as a final rule?

Section 553 of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)(3)(B)) provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary, or contrary to the public interest, the agency may issue a final rule without providing notice and an opportunity for public comment. EPA has determined that there is good cause for making this technical correction final without prior proposal and opportunity for comment, because this action does not make any substantive alterations in the existing tolerances. It is merely a housekeeping measure. Today’s action merges the contents of two existing regulations that contain sulfoxaflor tolerances and removes the time-limited tolerances contained in § 180.668(b) since they have been superseded by permanent tolerances contained in paragraph (a). EPA finds that this constitutes good cause under 5 U.S.C. 553(b)(3)(B).

IV. Do any of the statutory and executive order reviews apply to this action?

This final rule implements a technical correction to the Code of Federal Regulations, and it does not otherwise impose or amend any requirements. Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and is therefore not subject to OMB review. Because this action is not subject to notice and comment requirements under the Administrative Procedures Act or any other statute, it is not subject
