A new traffic signal is being built at this location currently. I don't have any problems of a proposed realignment. It would be make signal timing less complicated. The proposed signal timing at this location with new traffic signal is opposed phasing for Las Palmas. The realignment would eliminate the need for opposed phasing.

Hi Jeannie,

Another mega-development is proposed for Hollywood - this time near Sunset and Las Palmas. The developer is meeting with several City departments to discuss the project and receive initial feedback on May 7. One of their proposals is to realign Las Palmas so that it no longer jogs with Sunset. See the attached plans. Wes or I will attend the May 7th meeting, but we would like to get your opinion on the proposed realignment. Should we check with anyone else?
