Subject: Crossroads Hollywood Project WSA - RW line
Attachments: Crossroads Hollywood WSA map.pdf

Hello Mario,

The Water Resources Development Group is in the process of preparing a Water Supply Assessment for the project described below.

Project Name: Crossroads Hollywood Project
Address: 8-acre site including 1540 Highland Ave., Los Angeles
Location: Bounded by Selma Avenue to the north; the Blessed Sacrament Catholic Church and School to the east; Sunset Boulevard to the south; and Highland Avenue to the west.
(Thomas Guide Page 593 E4) (Please see the attached maps.)
Description: This Project will remove all existing except Crossroads of the World (commercial and office) to construct a new mixed-use residential, hotel, and commercial development on an 8-acre site. This Project (including existing to remain and new) would include up to 950 residential units, 308 hotel rooms, and up to 185,000 sf of commercial uses. We do not have information on the proposed landscape scope yet.

Is there an existing or proposed recycled water line near the Project site?

Would you or your staff like to attend our water conservation meeting, which may be on 4/25/16 or 4/26/16? I will let you know once the meeting schedule is confirmed.

If you don't plan to attend the meeting, is there any recycled water-related information you would like me to convey to the developer at the meeting?

Thank you.

Jin Hwang
