Attachments: Attachment 1.pdf;

Tim,

Here is the site plan for the project. I also have a map that shows where the significant impacts are located, let me know if you want to see that.

We have about 5 hours of overtime available. Would that be enough?

Thanks,

Wes

Wes,

Not sure if this will help when you talk to Tim.

The following streets adjacent to the Project Site have been identified in the High Injury Network:

- Selma Avenue between Schrader Boulevard and Vine Street
- Sunset Boulevard
- Highland Avenue between Franklin Avenue & Santa Monica Boulevard
- Las Palmas Avenue between Sunset Boulevard & Santa Monica Boulevard

Pedestrian Enhancements

The Project will provide vehicular and pedestrian circulation improvements, including the establishment of a new pedestrian passageway that would extend diagonally from Sunset Boulevard fronting Crossroads of the World to the intersection of Selma Avenue & McCadden Place. The Project would realign the segment of Las Palmas Avenue north of Sunset Boulevard to directly align with the segment of Las Palmas Avenue south of Sunset Boulevard, creating a continuous street at Sunset Boulevard and providing improved connectivity and safety.
