Alejandro, we have upgraded the sustainability PDFs quite a bit.

Madonna/Stephanie, can you send Luci and Alejandro the latest and greatest list?

Thank you!!

Best,

Kyndra

Hi. I gave the list of PDFs/MMs to Luci today so we'll get back to ARB.

Hi Luci and Alejandro,

Just checking in on the below. ARB wants confirmation from you re the proposed sustainability design features. Anything we can do to help?

We have not heard back from the City of LA since we talked with them last week. The City planning department said they were going to contact the applicant to provide a list of all the sustainability features in the project. Have you heard from the City? Once the city is satisfied with your list, we can sign off quickly.

Terry

Have you connected with City of LA? Assuming there are no comments by the time the comment period closes Friday, will your report be ready to go Monday ? We're trying to discern timeline due to all of the moving parts involved. Thanks, Paul

ARB is currently awaiting confirmation from the City of Los Angeles planning staff that they are comfortable with all of the proposed sustainability design features, before we sign off on our GHG determination.
