Dear Annie:

Thanks for notifying me of this meeting.

I will try to attend.

Here we have two proposals that will abolish a great number of moderate income housing units and replace them with high end housing and a hotel!!

The City is empowering and encouraging the destruction of the middle class in Los Angeles!

They are deliberately destroying middle class housing stock.

A Mega Example of this is the Crossroads of the World Project which will destroy a huge number of housing units.

Our Politics support protecting illegals who don't belong here and providing them through tax-payer moneys, legal counsel, housing, health care, transportation, schooling, and welfare.

Our Politics support empowering the homeless who don't contribute anything to society to the detriment of the middle class resulting in degradation of our environment, crime, vandalism, filth, health risks, drug addiction, litter, and graffiti.

Our Politics are turning Los Angeles into a third world Metropolis. Like Rio de Janeiro, we now have favelas! Like Sao Paolo we have perpetual gridlock! There the Managerial Class commute to work on helicopters!

Are our Mayor and City Counsel Brain Dead?!

Can't they see how they are destroying this City?

I find this very disturbing.

Regards,

Carl
