Dear Luciralia,

I am a resident of the Hollywood community and support the Crossroads Hollywood Project. This project will preserve and revitalize the historic Crossroads of The World complex. It also enhances connectivity via an open-air paseo filled with shopping, dining and entertainment options. In addition, it provides our neighborhood much needed creative office space, retail, a hotel, and market-rate and affordable residential units, not to mention creating thousands of full-time and part-time jobs.

I encourage you to support this project which will increase connectivity, walkability and vibrancy in a currently underused area of Hollywood.

Sincerely,

Siobhan Cathcart
