I have lived in Hollywood since 1978 and it is becoming impossible to go anywhere with the traffic. North to South: Highland, Cahuenga, Vine, Gower are all gridlocked.

This has never been a highrise community, nor should it be. Over-development is destroying the quality and nature of our community. Even the Hollywood Bowl has more and more events, effectively cutting us off on a near daily basis in summer.

I have never been politically involved, but this seems to be the time to take names and notice of the over developers who keep waiving building restrictions for the cash (hopefully just the tax revenues) and could care less about the people they are supposed to serve.

I am totally against this development. Against against against.
