Good afternoon,

I am writing today to express my full and complete support for the Hollywood crossroads project as currently submitted.

It will be a great improvement to an area that is in great need as well as providing thousands of jobs for local residents and improving the quality of life for Angelenos and further improve the dynamic nature of Los Angeles.

We need more projects like this.

Please don't let loud obnoxious NIMBYs stop the great progress we are making toward making Los Angeles a world-class city.

Thank you for your time and consideration.
