Dear Alejandro Huerta,

I write to ask you to oppose. I support historic neighborhoods and landmarks in the state by opposing these bills. It is my livelihood to use this location for rehearsals and lesson. This place has a special meaning and value to many local of us!

We do not need more apartment building and hotels!!! More hotels and strangers might be dangerous near the highland school which is right there. Please keep this area lockie as is!

The bill could endanger existing historic districts and will give more power to unscrupulous speculators to destroy historic buildings without the proper checks and balances from neighbors, the community, and architectural experts. The existing laws give no guarantee for helping communities protect their historical treasures. With even weaker laws, who knows what shared cultural gems we may lose in the future.

Please oppose these bills. Thank you for your efforts.

Georgios Moustakas
