Subject: hollywood center project

Hello - I live in the hills above this planned mega space intrusion. I am devastated over it. We can barely get home from the grocery store and forget about going anywhere from 3 on. I don't think our neighborhood can handle this kind of impact and I don't think an earthquake would do well well as it sits over a fault line. I have been following this for a long while when it was the other name and I thought without a doubt it was not approved so why now? money? something like this belongs downtown or century city not our neighborhood. I would also ask that we move the date to come and express our concerns as the covid19 has impacted everything and its really not a fair time to have people get in their cars to come voice a fair opinion.

I would like to be kept informed on that.

Thank you much for reading
