Good morning,

As residents of Beachwood Canyon, we strongly disapprove of the Hollywood Center/Millennium Project! Building a skyscraper on an earthquake fault line is simply ludicrous! In addition, the blight on the landscape is of serious concern. Capitol Records, a historic landmark, will be effectively destroyed and dwarfed by a behemoth completely out of a place in a landscape of two to four story buildings. Please consider and respect my community's feelings.

Also, please feel free to call us with questions or further clarification of our comments at 323.463-6303.

Thanks for your consideration.

Sincerely,
Anna Josenhans & Greg Hayden
