Thank you for your comment, Jack.

This coming work week, I will reach out to the project planners working on the Hollywood Millennium project to find more information for you as soon as possible.

The Department of City Planning is unwilling to extend the comment period for the EIR for the Hollywood Center project even though the City is under a Safer at Home order and that the EIR is over 12,000 pages long.

People have limited access to the documents. Libraries are closed. City Hall is closed. Internet connections may not be high speed. People cannot get together to coordinate their efforts.

The process stinks and destroys the credibility of DCP and its employees.
