Subject: Hollywood Center Project DEIR request time EXTEND response time

Hello Ms. Nguyen: Your department and the Mayor's hubris actions to not extend the comment period for the Hollywood Center Project DEIR is unacceptable. Under current virus conditions and the lifestyle adaptations citizens have had to adjust shows just how out of touch your department and our city officials are. This DEIR document is well over 3,000 pages. To properly read and analyze the materials would take a paid staff in your department more than 45 days. As lay people we do not have that leisure, we are working jobs, families to attend to, etc. we are devote volunteer time to our community and city. The disregard for the citizens and their input is a sad statement on democratic principles. Please reconsider this selfish, poor decision and extend the response period.

Christine O'Brien, tract 6450 Hollywoodland residential/Hollywoodland Gifted Park
