Jon,

The addresses provided do not appear to correspond to lots within the Hillside Grading Area nor seismic hazard zones; therefore, soils, geology or geology/soils reports would not be required prior to approval of a subdivision. Reports may be required prior to issuance of a permit for construction.

Casey

Good Morning Casey,

If you have a moment, I was wondering if you can confirm that the following projects are not located within seismic hazard zones or the Hillside Grading Area, and thus would not require Soils or Soils/Geology reports:

- [713 E 5th Street Project](#) - 713 E 5th St.
- [Olympic Project](#) - 1015 W Olympic Blvd.
- [Fig & 8th Project](#) - 744 S Figueroa St.
- [8th Hope & Grand Project](#) - 754 S Hope St.
- [670 Mesquit Project](#) - 670 S Mesquit St.
- [5420 Sunset Project](#) - 5420 W Sunset Blvd.

Thanks very much for your assistance. Please let me know if you have any questions.

Kind Regards,

Jon Chang
