The City of Los Angeles is proposing an update to the land use plan that guides land use and development within the Hollywood area. As part of the Hollywood Community Plan Update (Plan Update) the City is proposing to:

- Adopt new Community Plan goals, policies, programs, and a land use map
- Adopt zone changes and general plan amendments (see map for additional detail)
- Adopt a Community Plan Implementation Overlay District
- Adopt a Hillside Construction Regulation Supplemental Use District
- Amend the Framework Element of the General Plan, the Vermont/Western Transit Oriented District Specific Plan, and the Mobility Plan 2035 of the General Plan
- Certify the Hollywood Community Plan Update Environmental Impact Report

Because the update effort may impact the use and development rights of certain properties, City Planning is holding a Public Hearing for the City Planning Commission as provided in this notice. The Plan Update does not propose any specific development projects.

You may find information on the Hollywood Community Plan Update and how it may impact your property, at Planning4LA.org/hcpu2 and in hard copy by calling (213) 847-3732.
This map shows areas indicating where changes are being proposed. Land use and zone changes are classified as either Administrative Change Areas or as Active Change Areas as described below. Areas not shaded on the map are generally areas where no changes to land use or zoning are being proposed. The virtual Open House will feature more detailed maps and information on the proposed changes.

**Administrative Change Areas**
Changes to these areas generally bring the land use and zoning into consistency and/or reflect existing built conditions. The administrative change areas include parks, open space, and public facilities.

**Active Change Areas**
Changes to these areas generally allow for an increase or decrease in development density, floor area, height, and/or use(s) than what is currently allowed. The Active Change Areas also include the Community Plan Implementation Overlay District and the Hillside Construction Regulation Supplemental Use District.

To view an interactive zoning map where you can search for proposed zoning by property address, visit Planning4LA.org/hcpu.
