An ordinance establishing a Specific Plan for the Pacific Palisades Commercial Village.

SECTION 1. ESTABLISHMENT OF THE PACIFIC PALISADES COMMERCIAL VILLAGE SPECIFIC PLAN

The City Council hereby establishes this Pacific Palisades Commercial Village Specific Plan applicable to that area of the City of Los Angeles shown within the heavy black lines on the following map.
Note: The Specific Plan boundaries include all lots zoned for parking and commercial use located within the heavy black lines shown above.
SECTION 2. PURPOSES. The purposes of this Specific Plan are as follows:

A. To assure that the Palisades Commercial Village continues to function as a commercial area significant to the Pacific Palisades area of the Brentwood-Pacific Palisades District Plan and that future development is compatible with the surrounding residential community, the village-like character of the commercial area and the capacity of the circulation system as defined in the District Plan;

B. To enhance the aesthetic qualities of development, protect the low intensity, community-oriented uses and preserve the village-like quality of the area;

C. To enhance the pedestrian-orientation of the business center by reducing the size of Signs within the Specific Plan Area to a pedestrian, as well as an automobile-viewing size, promoting design coordination between a building or structure and its use, removing Temporary Signs and clutter and enhancing windows as display areas for merchandise and unifying the village-like characteristics of the Specific Plan Area through block Signs, promotion Banners and Symbol Signs;

D. To assure that the commercial uses are consistent with the general character of the Pacific Palisades community, which consists of single-family residences, some multiple residential structures and significant open space and park-like development;
E. To provide guidelines and a process for review and approval of exterior and site design, renovations, Signs for buildings and structures and other developments;

F. To promote orderly, attractive and harmonious development, minimize environmental effects of development, stabilize land values and investments and promote the general welfare by prohibiting buildings, structures or uses which are inconsistent with the purposes or standards of this Specific Plan or which are inappropriate to their sites, surroundings, traffic circulation impacts or their environmental setting;

G. To adequately buffer all new development from nearby residential uses, to the greatest extent feasible;

H. To assure that the character of Sunset Boulevard conforms to the character of the Commercial Village, because, although Sunset Boulevard is a link in the regional circulation system which is and always will be used by through commuter traffic, it is also "the front yard" of the Palisades Commercial Village and a critical route for local vehicular and pedestrian traffic;

I. To assure that development along Sunset Boulevard incorporates design characteristics that provide a unifying element to the Commercial Village and enhance its status as a scenic highway while providing a beautifying element to the Commercial Village through landscaping and other means;
J. To preserve all land presently zoned for parking uses in parking zones.
