Information included in this report comes from the 2012-2016 American Community Survey (ACS) 5-year estimates. The ACS produces period estimates of socioeconomic and housing characteristics. It is designed to provide estimates that describe the average characteristics of an area over a specific time period. For example, the 2012-2016 ACS 5-year estimates describe the population and housing characteristics of an area for the period January 1, 2012 through December 31, 2016.
