COMMUNITY PLAN: The Basics

Three South West Valley Community Plans:

• Canoga Park-West Hills-Winetka-Woodland Hills
• Reseda-West Van Nuys
• Encino Tarzana

What does a Community Plan Do?

• Sets a Vision for what you want to see in your community
• Creates and implements special planning tools that protects community character
• Guides decision making when development is proposed
Three components of a Community Plan:

1. Goals and Policies
2. Land Use Designation
3. Zoning Map
4. Boundaries

As time passes, it’s important to refresh these components!
Mansionization

Urban Design

Equestrian Neighborhoods

Hillside Development
Cities in California are required to adopt a General Plan to guide changes in the built and natural environment.

WHY UPDATE OUR COMMUNITY PLANS?

Current Community Plans:

• Last updated in the late 90s and needs refreshing
• The Plans are NOT tailored to address urban design and community character
• Could provide greater neighborhood protections
• Do NOT encourage and plan for Transportation Neighborhoods
• Do NOT adequately recognize sustainability goals and infrastructure needs
• Current zones are NOT consistent with improved zoning tools, are difficult and confusing to administer and adds additional layers of bureaucracy and delay
Goals of updating the community plan:

• Update policies to reflect neighborhood goals
  Exp: Create context sensitive zones, update resources

• Re-evaluate existing capacity to meet community needs

• Update the Land Use map
  Exp: Changing designations that no longer apply to what’s on the ground

• Apply a new flexible zoning code to existing areas
NEW COMMUNITY PLAN: FRESH NEW LOOK

What’s going to be improved in our NEW Plans:

- **Tailored new Zones that preserve your community’s character**
  - New Single Family Zones
  - New Commercial and Industrial zones with higher design requirements
  - Easy to understand!!!

- **Sustainability Features that improve the environment**
  - Transit Neighborhoods

- **Discussion of your community’s infrastructure needs**
  - Parks and Open Spaces
  - Roadways
  - Mobility
PROPOSED ZONING SYSTEM

1. FORM-FRONTAGE
2. USE-DENSITY

BUILT ENVIRONMENT

ACTIVITY
NUMBER 1: FORM

[FORM - FRONTAGE] [USE-DENSITY]

Sets development envelopes for buildings with:

- Lot Criteria
- Building Placement
- Bulk & Mass
- Activation
NUMBER 2: FRONTAGE

Requirements for how site & building addresses the right of way:
- Transparency
- Story Height
- Pedestrian Access
- Building Elements

By choice or mandated by zone
NUMBER 3: USE DISTRICTS

- Category system instead of enumerated list
- Clear use definitions & standards

[FORM-FRONTAGE][USE-DENSITY]
Identifies density at-a-glance, just like we do today with R1, R2, R3, and so on.
