

SLAUSON CORRIDOR

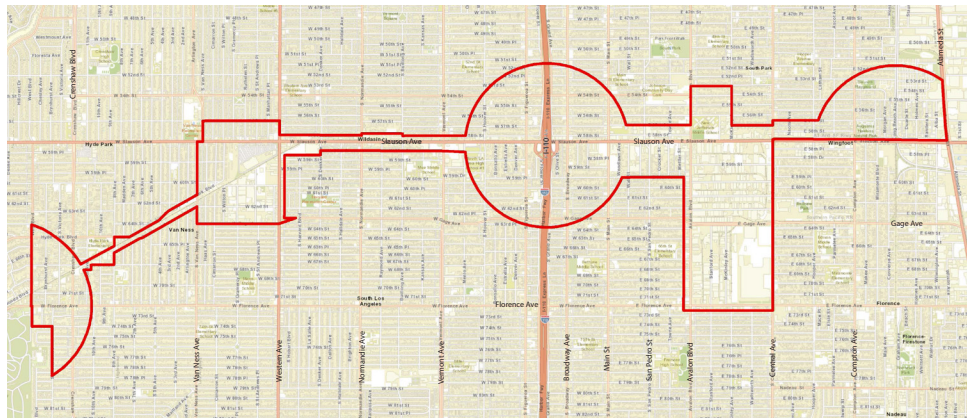

Transit Neighborhood Plan

WHAT IS IT

The Department of City Planning was awarded a three-year grant by Metro to do land use planning to pair alongside Metro's Active Transportation Rail to River Corridor Project. The plan will identify land use, zoning, and urban design strategies to improve access to the Blue Line, Silver Line, and Crenshaw/LAX Line stations and surrounding neighborhoods to activate the future Rail to River Corridor.

WHERE IS IT

HOW CAN I BECOME INVOLVED
